

Undergraduate Research Opportunities Program

## **Outstanding Undergraduate Researcher Award Spring 2008**

The Outstanding Undergraduate Researcher Award honors individuals who have exemplified excellence in research while undergraduates at the Georgia Institute of Technology. Qualities honored include uniqueness of research, longevity of experience, contributions to the discipline, and presentations of work in multiple forums. The recipients of each award were selected by the administration of each college. The award is sponsored by the Georgia Tech Research Corporation via the President's Undergraduate Research Award.

Awardees for 2007-08 are:

**College of Architecture** – Steven Hensey, Architecture

**College of Computing** – David Rutter, COC

**College of Engineering** – Chanchala Kaddi, BME

**College of Engineering** – Matthew McDowell, MSE

**College of Management** – Devesh Jain, Management

**College of Sciences** – Nicole Fay, Bio-chemistry/Biology

**Ivan Allen College** – Stephen Brinks, HTS

Congratulations Students!
