

## **Outstanding Undergraduate Researcher Award Spring 2009**

The Outstanding Undergraduate Researcher Award honors individuals who have exemplified excellence in research while undergraduates at the Georgia Institute of Technology. Qualities honored include uniqueness of research, longevity of experience, contributions to the discipline, and presentations of work in multiple forums. The recipients of each award were selected by the administration of each college. This year's awards are sponsored by the Georgia Tech Research Corporation via the President's Undergraduate Research Award and by contributions from the College of Engineering and College of Sciences.

Awardees for 2008-09 are:

**College of Architecture** – Shannon Barnes, Building Construction

**College of Computing** – Megan Elmore, CS

**Ivan Allen College** – Carrie Freshour, HTS

**College of Engineering** – Elizabeth Fleming, AE

**College of Engineering** – Scott Seaman, BME

**College of Engineering** – Ho Ming (Gabriel) Tong, CHBE

**College of Sciences** – Krista Lim-Hing, Biology

**College of Sciences** – Hussein Sayani, EAS

Congratulations Students!
